The following students need to return their track singlets to the office asap:

Ava Girard, Olivia Zurowski, Jade Tran, Zandrai Patkau, Karys Kozak, Jannah Pring, Jilayna carter, Kelsi Andrews, Ethan Tarko, Liam Hunter, Luke Marshall, Luke Nightingale, Hutton Nickalayu, Zander Bandet, Nicholas Irwin, Jerad Festus-Julian, Kynyn Bandet, Nicholas Cook.

Wondering about the new art installation in the commons, stairwell, and on the front of the school? The HSA grade nine students completed an art project in their science class this year with Saskatoon print artist Cate Francis. This is the result! Enjoy the amazing art as we wrap up the project in the next few days. Please do not touch the artwork and keep this installation looking amazing for months to come. Thank you!

Miss Ross and Ms. Franko :)

EAL Students: Any students requesting extra time for exams or to write your exam in the EAL room should request an exam accommodation form from Ms. Musey Johnson in room 204/225. These forms need to be signed by your classroom teacher and returned, no later than **Wednesday, June 22nd.**

New class option opportunities for next year:

Math 110 will be offered as a dual credit with Calculus 30 next year! If you take Math 110, you can also earn a Calculus 30 high school credit as those outcomes are covered in the Math 110 curriculum. This class will be one period in semester 2. If you have questions about the course, please see Ms. Cheston in room 206. If you are interested in taking Calculus 30 with Math 110 next year, please speak with Ms. Hanlan Stroh in the main office.

Whether you are in Grade 10, 11 or 12, you are welcome to take a new class offered in Foods and Clothing! Foods, Textiles, and Entrepreneurship 30 is a survey course where students will explore several hands-on projects in both the food and textiles industries and use these projects and skills to create a functional business plan. Students will also be introduced to entrepreneurship skills, and how to market and promote items that they make for a profit. Textile projects may include hoodie, pajama pants, small textile projects, beading or embroidery. Food projects may include charcuterie boards, canning and preserving, appetizers and basic baking. If you would like to switch to this course or add it instead of taking a spare, please speak with Ms. Hanlan Stroh in the main office.

Student Representative Government (SRG): If you are interested in being a member of the Student Representative Government (SRG) for the upcoming school year, please complete the online application form using the QR code. Applications due Sunday, June 19.

What Do You Want to Be When You Grow Up?

University of Regina: Take advantage of openings in our bilingual program in nursing. La Cité universitaire francophone has extended the application **deadline into our bilingual nursing program until June 30, 2022.** Please visit the following link for program details and application forms: <https://www.sasknursingdegree.ca/scbscn/#apply>. If you are interested or would like to receive more information, please contact us by email (Recrutement.Cite@uregina.ca) as soon as possible. We will provide support to help you register in the program before the end of June. This is a four-year degree program (50 percent in French and 50 percent in English) that is designed to train future nurses who will be able to provide health services in both English and French. In addition to avoiding waiting lists, students will benefit from many opportunities such as subsidized housing in our residence, scholarships, and other services and resources in French. To learn more or to find the application forms, please visit our website (<https://lacite.uregina.ca/fr/uni/programmes/sciencesinfirmieres>) as well as the program website (<https://www.sciencesinfirmieresk.ca/>).
