

# Welcome to E-Tahkanawasot

## What is E-Tahkanawasot?

- E-Tahkanawasot is a day care centre designed to support teen parents so that they can graduate with their high school diploma.
- Completing high school will help teen parents become financially independent for themselves and their children.
- We accomplish this by doing two things:
  - \* We provide high quality child care for your children including nutritious food, low adult/child ratios, a loving atmosphere and close monitoring of the development of your children.
  - \* The school has a range of services and resources to support students through the many challenges they face.

*At E-Tahkanawasot we know how challenging it is to be a teen parent and we want to help. Check what we can provide in this brochure and then give us a call.*

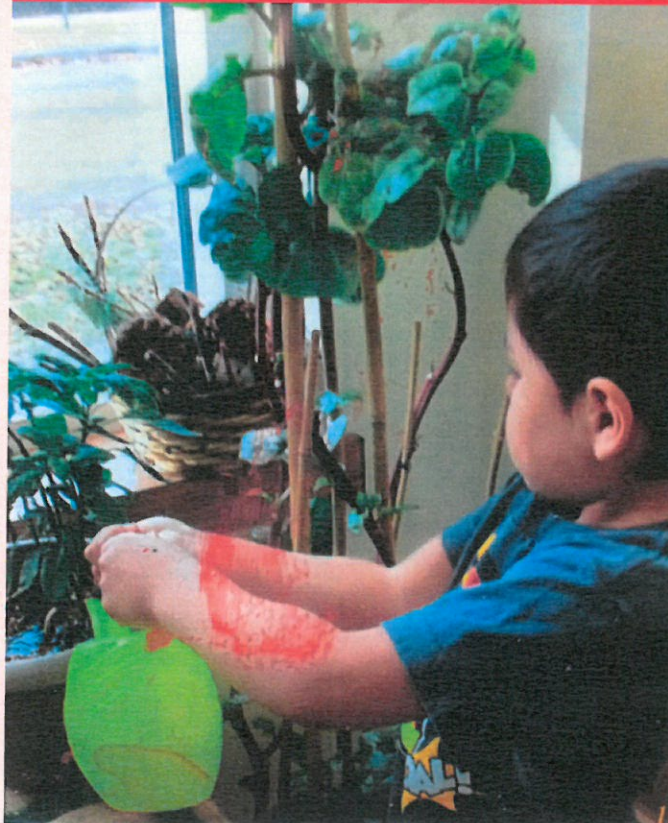

**You don't need to be attending Oskāyak High School to be eligible to bring your child to our Centre.**

The Centre may be able to offer some community spaces; please call for more information.
